PROJECTS

COOKBOOK
Project URL: https://lambda-cookbook.netlify.com

Allows users to save recipes from any website in order to view and schedule them in one place. Users can schedule recipes by meal and day, and generate a grocery list in any chosen date range.

WORK EXPERIENCE

Teacher's Assistant
Lambda School
Sep 2018 - Nov 2018

- Helped students understand the Lambda School full stack web curriculum
- Reviewed students' code on GitHub, and provided feedback on good practices and areas of improvement
- Met individually with each student to make sure they were on track to graduate

Chess Coach
Strategic Kids
May 2016 - Apr 2018

- Taught chess to elementary school-aged children
- After-school program designed to improve skills like patience, decision making, problem solving, and strategy
- Created fun and engaging lessons to teach these valuable life skills

Packing Facilitator
100 Mile Club
May 2016 - Apr 2018

- Prepared package contents to be shipped to schools
- Created and managed inventory records on shared network
- Automated inventory records for ease of use
- Assisted in other office tasks on request
